

Appln. No. 10/828,804

Attorney Docket No. 10541-1971

II. Remarks

Election of Species

In the Office Action of January 25, 2005, the examiner has indicated that the application includes patentably distinct species of the composite structural member as follows:

- I - Figures 1-3;
- II - Figures 4-5;
- III - Figure 6;
- IV - Figure 7; and
- V - Figure 8.

Applicants have been required to elect a single disclosed species for prosecution purposes. Accordingly, Applicants hereby elect species II, as shown in Figures 4-5. Claims 1, 4-7, 9, 11 and 12 are deemed readable on this species, with claims 1 and 12 being generic to all of the species.

Conclusion

It is respectfully submitted that the present form of the claims are patentably distinguishable over the art of record and that this application is in condition for allowance. Such action is requested.
